

## PROMOTING SAFETY, HEALTH AND WELLBEING IN HIGHER EDUCATION

USHA is at the forefront of sector-based GUIDANCE to secure successful health and safety management in Higher Education and has gained international recognition for its work.

Recent guidance work has focused on Leadership and Management, Research, Fieldwork, Fire Safety, Student Placements and Nanotechnology .

USHA encourages and supports the development and activities of its Networking and Specialist Groups which are the breeding ground for stakeholder guidance as well as developing toolkits and delivering conferences and training events.

The association actively works in partnership with sector stakeholders as well as university staff and students.

For our members we offer a community of support, knowledge sharing and networking
